May 7, 2013

Dear Valued TPCP Licensee,

API is pleased to announce that by December 31, 2013, the API Training Provider Certification Program (TPCP) will be merged with API-U (API's training program) and will no longer function as a stand-alone program. API is confident that by bringing TPCP under the API-U brand, a stronger program will emerge.

As a member of API-U, training providers will enjoy the benefits of the API-U brand. This includes having course dates listed on the API-U calendar, being advertised on the daily API SmartBrief, the ability to post the API-U logo on your website, and the use of the API-U course certificate of completion.

The API-U program is undergoing two significant changes that will take effect January 1, 2014. First, due to a conflict of interest, API-U will stop accepting applications or offering Individual Certification Program (ICP) exam prep-courses. Second, API-U will no longer be accepting API Spec Q1, API Spec Q2, API Spec 6A, API Spec 6D/6DSS or Lead Auditor 19011 courses. These courses offered by API-U will be API-U owned training courses that will be licensed to qualified providers for a royalty fee. If you are interested in continuing with API-U, a new contract will need to be signed before the end of the year. Until then, your current TPCP contract will be upheld.

While API-U applications are available at www.api.org/apiu and being accepted, API-U audits will not resume until November 2013.

API would like to thank you for your participation in the API TPCP program. We hope you choose to continue to work with API under the API-U brand. API-U will continue to strive to provide the highest level of quality training to the global petroleum and natural gas industry.

If you have questions please contact Marisa McArthur, Manager, Training Programs, at mcarthurm@api.org, or Afsana Hashem at hashema@api.org

Thank you,

John D. Modine
