To whom it May Concern:

The following system manufactured by Immersion Ultrasonic Technologies;

Socomate USPC 3100 LA, Version: 6.4.5

Socomate USPC 3100 I, Version 6.4.5

Socomate USPC 3100 MHA+, Version 6.4.5

have been qualified as of September 15, 2007, and a letter was written to add the new version to the DFO for P29TF82 Class A, B, C, and P3TF31.

Sincerely,

A handwritten signature in black ink, appearing to read 'Terry Dakin'.

ROLLS ROYCE APPROVAL

We have now obtained approval from Rolls Royce for the USPC3100I card.
A number of minor problems were encountered during approval but have been solved successfully.

This opens up a large market for us and should make it easier to obtain formal approval from GE and Pratt & Witney.

Rolls Royce approval reference for USPC3100I card is **RPS 705/QCTP 6265**.
